Prisons of Creativity

Artistic Innovation During Incarceration

John R. Whitman

Sparking a discussion of the importance of creativity for the well-being of society, this book highlights and argues for the potential of those in prison to learn and exercise the skills of writing, visual arts, and music; to protect their intellectual property; and to distribute their works to the public, and the consequent benefits of their creative contribution to wider society.

"As a lifelong corrections professional and advocate for incarcerated people, I wholeheartedly endorse this text for its insightful exploration of the historical and cultural shifts in prison practices and its compelling argument for harnessing the creative potential of incarcerated individuals to benefit society."

— **Carole Cafferty**, *Corrections Superintendent (retired)*

"A unique addition to the current discourse towards an inclusive creative ecosystem and the national campaign to cultivate the many undeveloped tracts of American talent. Its thesis of personal redemption and individual dignity through artistic contribution will resonate with policy makers and social activists alike."

— **Lateef Mtima**, *Professor of Law, Howard University School of Law; Director, Institute for Intellectual Property and Social Justice*

"A sweeping account of the wasted creative potential of incarcerated persons and the resulting loss of innovation and economic benefits to society. Whitman argues for a national creative carceral policy grounded on the Constitution, which secures intellectual property rights for creators regardless of class or status. A trove of arts-in-corrections programs provides a framework to promote creativity and rehabilitation for the entire prison population, numbering more people than many nations."

— **Alma Robinson**, *Executive Director, California Lawyers for the Arts*
